Forward Looking Statements and Non-GAAP Measures

In keeping with the SEC's "Safe Harbor" guidelines, certain statements made during this presentation could be considered forward-looking and subject to certain risks and uncertainties that could cause results to differ materially from those projected. When we use the words "will likely result," "may," "anticipate," "estimate," "should," "expect," "believe," "intend," or similar expressions, we intend to identify forward-looking statements. Such forward-looking statements include, but are not limited to, our business and investment strategy, our understanding of our competition, current market trends and opportunities, projected operating results, and projected capital expenditures.

These forward-looking statements are subject to known and unknown risks and uncertainties, which could cause actual results to differ materially from those anticipated including, without limitation: the Risk Factors discussed in our most recent Annual Report on Form 10-K; rising interest rates and inflation; macroeconomic conditions, such as a prolonged period of weak economic growth and volatility in the capital and financial markets; uncertainty in the business sector and market volatility; general and economic business conditions affecting the lodging and travel industry; our ability to repay, refinance or restructure our debt and the debt of certain of our subsidiaries; anticipated or expected purchases or sales of assets; our projected operating results; completion of any pending transactions; risks associated with our ability to effectuate our dividend policy, including factors such as operating results and the economic outlook influencing our board's decision whether to pay further dividends at levels previously disclosed or to use available cash to pay dividends; general volatility of the capital markets and the market price of our common stock; changes in our business or investment strategy; availability, terms and deployment of capital; availability of qualified personnel; changes in our industry and the market in which we operate, interest rates or the general economy, the degree and nature of our competition, legislative and regulatory changes, including changes to the Internal Revenue Code of 1986, as amended (the "Code"), and related rules, regulations and interpretations governing the taxation of REITs; and limitations imposed on our business and our ability to satisfy complex rules in order for us to qualify as a REIT for federal income tax purposes. These and other risk factors are more fully discussed in the company's filings with the Securities and Exchange Commission.

EBITDA is defined as net income (loss) before interest expense and amortization of loan costs, depreciation and amortization, income taxes, equity in (earnings) loss of unconsolidated entity and after the Company's portion of EBITDA of OpenKey. In addition, we excluded impairment on real estate, (gain) loss on insurance settlement and disposition of assets and Company's portion of EBITDA of OpenKey from EBITDA to calculate EBITDA for real estate, or EBITDA_{re}, as defined by NAREIT. EBITDA yield is defined as trailing twelve month EBITDA divided by the purchase price or debt amount. A capitalization rate is determined by dividing the property's net operating income by the purchase price. Net operating income is the property's Hotel EBITDA minus a capital expense reserve of either 4% or 5% of gross revenues. Hotel EBITDA flow-through is the change in Hotel EBITDA divided by the change in total revenues. EBITDA, FFO, AFFO, CAD and other terms are non-GAAP measures, reconciliations of which have been provided in prior earnings releases and filings with the SEC or in the appendix to this presentation.

The calculation of implied equity value is derived from an estimated blended capitalization rate ("Cap Rate") for the entire portfolio using the capitalization rate method. The estimated Cap Rate is based on recent Cap Rates of publically traded peers involving a similar blend of asset types found in the portfolio, which is then applied to Net Operating Income ("NOI") of the company's assets to calculate a Total Enterprise Value ("TEV") of the company. From the TEV, we deduct debt and preferred equity and then add back working capital to derive an equity value. The capitalization rate method is one of several valuation methods for estimating asset value and implied equity value. Among the limitations of using the capitalization rate method for determining an implied equity value are that it does not take into account the potential change or variability in future cash flows, potential significant future capital expenditures, the intended hold period of the asset, or a change in the future risk profile of an asset.

This presentation is for informational purposes only and is not an offer to sell, or a solicitation of an offer to buy or sell, any securities of Braemar Hotels & Resorts Inc. or any of its respective affiliates, and may not be relied upon in connection with the purchase or sale of any such security.

Prior to investing in Braemar, potential investors should carefully review Braemar's periodic filings with the Securities and Exchange Commission, including, but not limited to, Braemar's most current Form 10-K, Form 10-Q and Form 8-K's, including the risk factors included therein.

Certified Internal Auditor Appointed Rebecca Musser

Rebecca Musser

- Ms. Musser was appointed to the BHR Board of Directors and as chair of our Audit Committee on December 30, 2024.
- Ms. Musser was first nominated in August 2024 as an Independent Director of Wheeler Real Estate Investment Trust (NASDAQ: WHLR), which owns, acquires, develops, finances, leases, and manages more than 8 million sqft of retail properties.
- As a licensed Certified Internal Auditor, she began her internal audit experience roughly 20 years ago at Tyler Technologies, where she and the audit director formed the company's first internal audit department. Following Tyler Technologies, Ms. Musser worked for public company Dean Foods in their internal audit department and served as Controller at Paul Quinn College.
- Ms. Musser's clients within the last 7 years include global investment firm Sixth Street Partners, formerly part of TPG, and MUFG, a bank and private equity fund administrator. At MUFG, she served as the Interim Controller for a real estate private equity fund administrator. At Sixth Street, she assisted the management companies and the fund companies with complex accounting projects.

⁽¹⁾ SOFR rate was 4.33% at December 31, 2024.

⁽²⁾ This mortgage loan was amended in January 2025. Terms of the amendment included a \$10.0 million principal paydown, extending the current maturity date to July 2025, and reducing the interest rate to SOFR + 3.25%. This amendment has one six-month extension option subject to satisfaction of certain conditions.

⁽³⁾ This mortgage loan has three one-year extension options subject to satisfaction of certain conditions, of which the second was exercised in February 2025.

⁽⁴⁾ This mortgage loan has five one-year extension options subject to satisfaction of certain conditions, of which the fifth was exercised in June 2024. This mortgage loan is secured by the Sofitel Chicago Magnificent Mile, The Clancy, Marriott Seattle Waterfront and The Notary Hotel.

⁽⁵⁾ This mortgage loan has three one-year extension options subject to satisfaction of certain conditions. This mortgage loan is secured by The Ritz-Carlton St. Thomas, Pier House Resort & Spa, Bardessono Hotel & Spa, Hotel Yountville and The Ritz-Carlton Sarasota. Braemar holds a tranche of CMBS that has a par value of \$42.2 million and a rate of SOFR +5.20%, which results in an effective interest rate on this mortgage loan of SOFR + 3.01%.

⁽⁶⁾ This mortgage loan has two one-year extension options subject to satisfaction of certain conditions. This mortgage loan has a SOFR floor of 1.00%.

⁽⁷⁾ This mortgage loan has two one-year extension options subject to satisfaction of certain conditions. This mortgage loan has a SOFR floor of 2.00%.

⁽⁸⁾ The weighted average interest rates are adjusted for in-the-money interest rate caps and the CMBS tranche.

⁽⁹⁾ The final maturity date assumes all available extension options will be exercised.
